Subject: Microsoft-Clinton Anti - Trust Law Abuse

Gentlemen: It is time to end yet another attempt by left wing liberals to fleece an American Company as Clinton's pay back to the lawyers for their contribution to his two disastrous administrations. Microsoft was built by imitative and hard work. If the companies that run to the Justice Department to complain about Microsoft had exhibited the talent and hard work, they would be in a position to compete.

Please end this Anti-trust Law Abuse now.

Thank you, Dale Malott
